Summary

Full Stack Developer with experience in React, Node.js, NestJS, and AWS. Strong in building scalable web/mobile applications and integrating modern APIs. Passionate about writing clean code and delivering user-centered solutions in fast-paced teams.

Skills

Languages: HTML, CSS, JavaScript, TypeScript, C, C++

Technologies & Tools: React, React Native, Node.js, Express, NestJS, MySQL, Docker, CI/CD, AWS, Git, GitLab, GitHub, REST API, GraphQL API, JWT Authentication & Authorization, Bootstrap, Tailwind CSS

Certifications: React (HackerRank, 2023), JavaScript (HackerRank, 2023), SQL Basic (HackerRank, 2023), AWS Certified Solutions Architect – Associate (2024), Docker Certified Associate (2024)

Languages: Fluent in English; Conversational Proficiency in Hindi

Interests: Programming, Podcast, Gaming

Work Experience

Octal IT Solution (CMMI Level 3 Appraised)

Feb 2025 – Present

Full Stack Developer

- Develop and maintain web/mobile apps using React, React Native, Node.js, and NestJS.
- Create CI/CD pipelines and deploy on AWS.
- Integrate REST and GraphQL APIs with cross-functional teams.
- Use Docker, GitHub, and GitLab for containerization and version control.
- Optimized application performance by implementing lazy loading and caching strategies.
- Conducted code reviews to ensure adherence to best practices and improve team collaboration.

Kalazara Technologies

Jan 2024 – Feb 2025

Full Stack Developer

- Managed multiple projects, ensuring deadlines and quality.
- Developed features using React, Express, and MySQL.
- Diagnosed and fixed bugs in production.
- Enhanced UI with HTML, CSS, JavaScript, and Tailwind CSS.
- Automated testing processes using Jest, reducing bug reports by 25%.
- Mentored junior developers, helping them improve their coding skills and project understanding.

Project Work

- **AI-Enhanced React Native Task Manager (2024):** Built a mobile app using React Native, integrated with OpenAI's API for smart task prioritization. Features include voice-to-text task entry, AI scheduling, and cross-platform sync. Deployed on AWS with REST API for seamless data management. Ensured data security by implementing encrypted storage for user data. The app was praised for its intuitive design during beta testing.
- **AI-Driven Web Recommendation System (2023):** Developed a web platform using React, Node.js, and Express, enhanced with OpenAI's API for personalized recommendations. Included user behavior analysis and real-time updates. Deployed on AWS with GraphQL API for scalability. Integrated error logging and monitoring with Sentry to improve system reliability. The platform supported thousands of users with minimal downtime.

Education

Prestige Institute of Management and Research

2021 – 2024

Bachelor of Computer Science

SGPA: 8.6 / 10
